PERFORMANCE DATA REPORT

The Highland Performance Program provides invaluable information for a breeder to utilize when making selection decisions. In addition it provides all of us data on the breed. Below is a summary of the data collected by the Highland Performance Program.

Birth Weights
Female Average: 65 lbs
1982 recorded
Male Average: 70 lbs
1609 recorded

Weaning Weights
(adj 205 days)
Female Average: 360 lbs
1271 recorded
Male Average: 397 lbs
1071 recorded

Yearling Weights
(adj 365 days)
Female Average: 532 lbs
70 recorded
Male Average: 600 lbs
72 recorded

Docility Scores
79% are Exceptionally Calm or Calm

1 Animal is exceptionally calm. Offers no resistance to headgate. Exits slowly, may require assistance. If confined, remains calm. Does not flee your presence. If isolated individually, does not appear anxious/concerned. 691 recorded

2 Animal is calm. When processed, animal will resist headgate initially but will relax after initial resistance. Animal needs no assistance when exiting. Animal is calm if confined/isolated. 689 recorded

3 Animal is calm in most situations. Offers some resistance to headgate. Animal is anxious to leave the chute. When confined, animal is not nervous/remains calm. When isolated individually, animal becomes slightly nervous, does not attempt to exit. 282 recorded

4 Animal is calm in most pasture situations. Will become nervous when approached. Is generally nervous when processing. When entering corrals will be high-headed and unmanageable. When confined may tend to circle the pen. When isolated animal will attempt to exit. 58 recorded

5 Animal is not calm when approached. Spends considerable time being high-headed. Offers great resistance to headgate/processing. If confined, animal is nervous. Tends to circle. When isolated individually, attempts aggressively to exit. Will attempt to endanger the handler/will "go after you". 29 recorded

Calving Ease Scores
98% Calved Unassisted

1 (No Difficulty, No Assistance)	7809
2 (Minor Difficulty, Some Assistance)	86
3 (Major Difficulty, Calf Puller Used)	44
4 (Caesarean Section, Very Difficult)	5
5 (Abnormal Presentation)	65
