Month Day Year Month Day Year
Signed _____
Complete Address _____

Breeding Certificate: The above Breeding Certificate must be completed by the owner of the sire, if he/she was not the owner of the dam at the time she was served. If the service was by Embryo Transplant (ET), this application must be accompanied by paperwork issued by the embryo transplant firm and approved by AHCA.

The original owner of the animal to be registered must be a member of the American Highland Cattle Association at the time AHCA receives this application.

Original Owner: This registration application must be completed and signed by the original owner (owner of the dam at the time she calved). If you are the second owner, then the animal must be transferred to you by the seller on a transfer application.

Tattoo: Each animal must be tattooed at the time AHCA receives the registration application and it should include: herd letters, unique animal number and year of birth (number of the year or letter equivalent assigned by AHCA). Herd letters must be recorded and approved by AHCA. The Association suggests placing the entire tattoo in the left ear.

Records: It is highly recommended to keep accurate private records on your cattle. Whenever an application is considered questionable, the burden of proof of its validity rests upon the applicant.

Cancellation: Any entry subsequently found to be erroneous or fraudulent shall be canceled and the certificate recalled.
